

MobileDemand Technical Support Bulletin

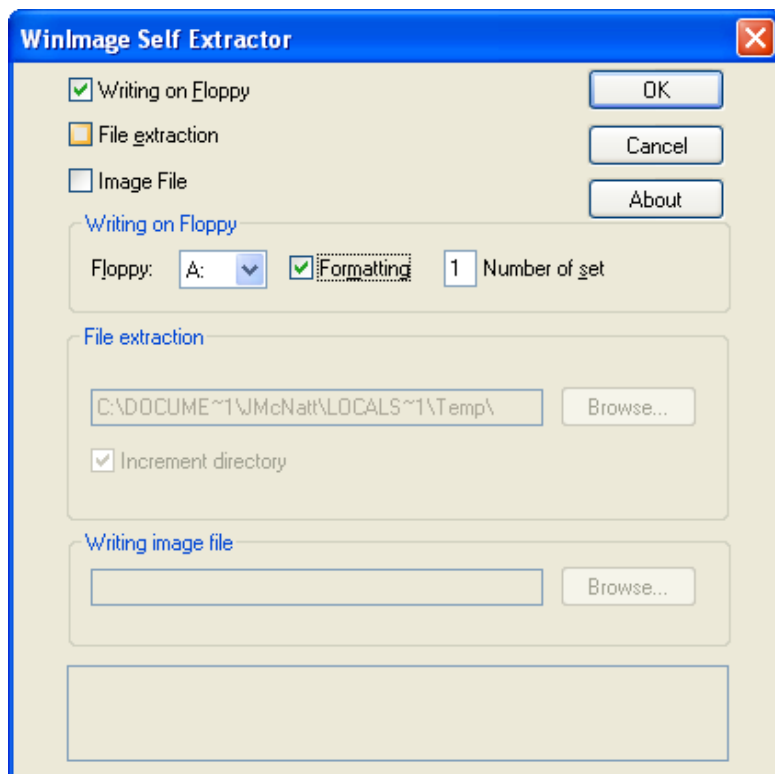

Bulletin #: 20070823

Subject: BIOS Update

Following are instructions for updating the BIOS for on a T8600:

- 1) Go to http://www.myruggedtabletpc.com/support/tech_support.php
- 2) Click on T8600 WinImage Bios R105A link
- 3) This file will start WinImage Self Extractor

- 4) Use this to make a floppy
- 5) The tablet must be plugged in to update the BIOS
- 6) Start the tablet with this floppy in a USB floppy drive connected to your tablet
- 7) When the update finishes, it will restart and go to a start up screen, at this point eject the floppy
- 8) Press Fn+2 on the numeric keypad, the tablet will start into Windows and the BIOS update is finished
- 9) Repeat on all T8600s
